

Practice Management Discussion

Details

Time:	14:00 – 16:00
Type of Event:	Discussion Group
CPD Points:	2 CEU's

Workshop Information

Who should attend:

- Clinical, Counselling and Educational Psychologists interested or in private practice.
- Community / Intern Psychology students.

Pre-work:

- Participants attending the forum should be prepared in sharing their own experiences and challenges in private practice. This will be very valuable in the facilitated group discussions.

Facilitator:

- Martinette Pienaar

Overview

Few psychologists get formal training on how to set up or run an independent private practice. We sometimes tend to think that we know how to be a psychologist and think this is all we need to be successful in private practice.

The forum will ask of you to do some self-exploration and to analyse your own dreams, motives and behaviour. It will also challenge you to think strategically about your business.

Agenda:

- Introduction and background information
- You, your dream and what you know
- Being an entrepreneur and managing a business
- Living the psychologist lifestyle

Outcomes:

This discussion group offers an opportunity to be part of a community of psychologists that shares knowledge, experience and advice on running a private practice. It will provide a space for both new and more experienced psychologists to share and impart general business knowledge.
