

Improving Safety Behaviour in the Workplace Discussion Group

Details

Time:	14:00 – 16:00
Length of Workshop:	2 Hours
Type of Event:	CPD Discussion Group
CPD Points:	2 CEU's
Cost:	FREE

Workshop Information

What's included:

- 2 hour discussion on safety related behavioural issues encountered in organisational settings
- Overview of SA safety legislation
- Presentation of safety research completed with South African mining organisations
- Open discussion of safety-related issues

Who should attend:

Anyone with an interest in the improvement of safety and reduction of accidents in organisations

Facilitator:

- Paul Vorster

Overview

Agenda:

- Introduction
- The Importance of Safety
- Legislation regarding Safety
- Misconceptions in Safety
- Research on Safety Completed with Mining Organisations

Outcomes:

This discussion group is designed to address some key aspects relating to safety in the workplace

The aim of this discussion will be to enhance knowledge about safety and safety-related interventions in organisational settings. This will be accomplished through the discussion of practical safety related topics and case studies. An overview of safety legislation will also be provided. The discussion will focus on psychological aspects of safety including topics such as conscientiousness and safety, safety attitudes, perception and safety, and psychomotor aspects of safety. Recent research on safety in the mining industry will also be presented. This information will act as a primer for discussion on safety related topics.
